

Kaikoura District Council  
Kaikoura District Council  
Electing 7 Councillors

---

**Derrick MILLTON**

My principal place of residence is in the Kaikoura District Council area.

I was elected to the Kaikōura District Council in November 2013

I am seeking re-election as a Councillor in the Local Body elections.

The scale and size of the Kaikōura District Council has been severely challenged in the last three years. Managing the infrastructure rebuild, establishing new staff responsibilities, managing natural hazard decisions as well as maintaining the normal Council statutory functions has been time consuming. Council has received generous help, assistance and support post-earthquake but now needs to return to normal operations. Council must involve the community with transparent decision making and grow the opportunities to make the Kaikōura district a better place to live.

Central Government has recently funded a Financial and Corporate Sustainability project for Kaikōura .If elected, I would like to help our council and community implement the changes from this reform, over the next three years.
