

**ENVIRONMENTAL SERVICES COMMITTEE MEETING  
HELD ON WEDNESDAY 21 SEPTEMBER 2011 IN  
MEMORIAL HALL SUPPER ROOM, ESPLANADE,  
KAIKOURA.**

**AGENDA**

1. *Apologies*
2. *Matters of Importance to be raised as Urgent Business*
3. *Matters Arising from the Report of 17/08/2011* *page 71*
4. *Environmental Services Report* *page 25*
  - *Dog/Stock/Noise Control & Security*
  - *Building*
  - *Resource Planning*
  - *Resource Consent Update List*
  - *District Planning & Environmental Planning*
  - *Environmental Health*
  - *Environmental Services Budget Report* *page 44*
5. *Urgent Business*

## • **Dog/Stock/Noise Control & Security**

### **Dog Control**

1. In August nine calls were received regarding mostly roaming dogs and minor behaviour matters.
2. The Killarney Street dog was reported loose on two occasions. Both times the owner was contacted and the dog picked up promptly. There is a problem with children at the property not being careful enough and the owner is addressing this.

### **Stock Control**

1. Six stock calls were received. Three of these related to South Bay with cattle coming off the hills above. These belong to a local farmer and he has been spoken to regarding improvements that will prevent further calls. The others were all cattle pushing out due to the time of year and being short on feed. All were attended and stock removed.

### **Noise Control**

1. Three complaints were received regarding Whitby Place and Churchill Street. The complainant was looking for further contact details of Council to follow up after hours as such. Rather than hand them out, I contacted the person concerned direct and passed on the concerns.

## • **Building**

There were 23 Building Consents with a combined construction value of \$2,161,450 issued for the month of August 2011. These consents were for.

- 5 new dwellings
- 4 dwelling alterations/additions
- 8 new sheds/garages
- 2 log fires
- 1 shop fit out
- 1 accommodation unit addition
- 1 sewer pump connection to main sewer
- 1 pergola

There are still 12 applications on hold waiting for further information to come before final processing is carried out. Building Control was very busy in August with the larger number of building consents submitted for the above projects.

There was 8 Code Compliance Certificates and 15 Land Information Memorandums issued in August.

The process of identifying earthquake-prone buildings is ongoing when time permits, enforcement issues are taking up a large portion of time with numerous phone calls regarding work being undertaken without building consent.

The Building Administration Officer due back from leave on the 7<sup>th</sup> of September this has changed to 12 September.

It is not anticipated the number of building consents will remain at the level received in August. In the last working week applications and enquiries have appeared to have dried up, hopefully this will improve as the month goes on.

- **Resource Planning**

**Resource Consent Update: From 9 August 2011 to 12 September 2011**

One new application for subdivision and one new application for land use have been received. The application for land use is for a new bar/restaurant at 50 West End.

**Notified Consents**

Marine Hotels Ltd, 191 Beach Road. Land use – addition of accommodation units-notification has closed with 3 submissions received in oppositions. The hearing date is set for the 20<sup>th</sup> of September.

**Monitoring**

Monitoring of consent applications and complaints is ongoing.

Although traditionally winter has been a slow period for resource consents this gives staff time for end of the financial year reconciliation, and monitoring of existing resource consents. Staff are also becoming acquainted with the new regional plans, national policy statements and have completed the biannual Ministry for the Environment Survey.

## • Resource Consent List Update

RESOURCE CONSENT UPDATE LIST FOR THE PERIOD FROM 9 AUGUST TO THE 12 SEPTEMBER 2011.

Resource consents decisions issued:

Type of Consent	Applicant	Address of Activity	Number of New Lots / Guests
Land Use – Visitor Accommodation up to 4 guests	R W Low	4 Valley Road, Goose Bay	4
Land use – Visitor Accommodation up to 4 guests	Ian & Wendie Partner	11 Sunrise Place, Kekerengu	4
Land use – upgrade existing electricity lines	Marlborough Lines Ltd	Waipapa Bay	
Subdivision – create 2 lots	G & L Lee	208 Red Swamp Rd	2
Building in archaeological site	Leigh Archbold	131 South Bay Parade	
Subdivision to create extra lot and building dwelling in flood zone	F L McGovern	59 Athelney Road	
Relocate dwelling and non compliance boundary encroachment	David A M Swift	101b South Bay Parade	
Land use- Hotel & retail commercial/tourist services	Kaikoura Wharf Developments Ltd	Wakatu Quay New Wharf	
Building shed with encroachment on road boundary	Department of Conservation	Ludstone Road	

Active consent applications currently in process:

Type of Consent	Applicant	Address of Activity
Operate a Bar, restaurant & bottle store until 3am 7 days a week	Crumpet Limited	50 West End
Land use – addition of accommodation units	Marine Hotels Ltd	191 Beach Road
Subdivision Boundary adjustment and non complying existing garage	Peter Diver	178 & 180 Torquay St

Consent applications awaiting receipt of further information requested from applicant or on hold:

Type of Consent	Applicant	Address of Activity
2 stage subdivision - 5 lots	RP & EF Wilson	219 Beach Road
Subdivision 2 extra lots	McKenzie & Saint Martins Trustee Services Ltd	1370 Shwy 1
10 Lot Subdivision & Land Use	2 Crush NZ Ltd	Mt Fyffe Road
2 lot subdivision	Tormar Holdings Ltd	Cnr Margate & Torquay Streets
Subdivision- Boundary adjustment	Kaikoura District Council	Maui Street
Sign Consent	The Woolshed - Davidson	Beach Road
Signs Consent	Wilson*	State Highway 1, Hapuku
Subdivision- Separation of existing title	Matariki Farms	State Highway 1 Clarence
Subdivision: 2 lot subdivision & dwellings	Reardon SJ & AR	19 Old Beach Rd
Land Use- Visitor accommodation 2 guests and non-compliance with height standard	N Mitchell	13 Swyncombe Place

Consent applications subject to appeal under sections 120 and 358 of the Resource Management Act:

Type of Consent	Applicant	Address of Activity
NONE		

Consent applications subject to objections under section 357 of the Resource Management Act:

Type of Consent	Applicant	Address of Activity
NONE		

Consent Applications declined:

Type of Consent	Applicant	Address of Activity
NONE		

Consents withdrawn:

Type of Consent	Applicant	Address of Activity
NONE		

Consents returned as incomplete:

Type of Consent	Applicant	Address of Activity
NONE		

Consent applications subject to application for declaration under section 311 of the Resource Management Act: Nil

\* Denotes Retrospective Consent

## • **District & Environmental Planning**

### **District Plan & Environmental Planning Report Covering 10 August to 12 September 2011**

#### **National Policy Statements**

##### Draft New Zealand Energy Strategy and Draft New Zealand Energy Efficiency and Conservation Strategy

This strategy has now been released. The most significant change is the way the government will deal with block options for oil exploration in the future. There will be a consultation with the local community in the period prior to release of each block option, but the strategy is unclear as to how this will be weighed. I have spoken to a representative at the Ministry for Economic Development and outlined that our Council would like to be part of that consultation for our area.

##### Proposed National Policy Statement on Indigenous Biodiversity

A submission has been lodged; no correspondence has been received on this. Ministry for the Environments web page states that 426 submissions received are currently being summarised.

##### National Policy Statement for Renewable Electricity Generation 2011

An implementation guide is due out this month. It is anticipated that guide will set examples of how to give effect to the policy statement. After the implementation document is released it is proposed to run a workshop with Councillors to discuss what changes are required to our District Plan.

#### **Canterbury Regional Council**

##### Land and Water Management Plan

Environment Canterbury is undertaking preparation of a Land and Water Management Plan which is a review of the Natural Resources Regional Plan. The Natural Resources Regional Plan has the regional rules for water, air and land use. This review includes all chapters except the Air chapter.

A letter has been received from Environment Canterbury seeking feedback on five concerns with the existing Natural Resources Regional Plan document (Chapters 4-8). Feedback has been provided on following matters:

1. Scale and accuracy of maps within documents.
2. Kaikoura's geographic features differ from Canterbury as a whole.
3. Efficiency of planning process (removing duplication and multiple consents).
4. Riparian Management, better integration in documents.
5. Cost of over regulation.

It is likely that Environment Canterbury staff will workshop with Kaikoura District Council staff. Councillors will be kept informed.

##### Regional Coastal Environment Plan

The Plan Change will become operative on 11 October 2011. The fuel company is applying for the resource consent for the fuel tanks, and the Kaikoura District Council is applying for the resource consent for the sea wall protection at the boat park.

##### Regional Land Transport Strategy (RLTS)

The RLTS has been received for submissions. A summary of the Draft RLTS has been provided to Councillors. The RLTS sets the direction for land transport within the Canterbury Region. A

submission is currently being drafted and discussion is occurring with our engineers. Submissions close on the 23 September 2011.

#### Canterbury Regional Policy Statement (CRPS)

Due to a notification error the CRPS is being re-notified and submissions now close on 17 October 2011. The original submission is still valid; therefore there is no need to prepare a new submission.

#### **Rugby World Cup Information Boards**

The support structure is being finalised by the West End action group and the northern board will be erected by the group. The southern board is still subject to confirmation of site approval by New Zealand Transport Agency.

#### **Te Korowai**

The draft strategy was release at a launch on the 1<sup>st</sup> of September. The strategy has created a lot of discussion in the community. Additional copies of the strategy are available from the Environment Canterbury office in Kaikoura.

#### **Zero Waste**

Household recycling crates are now in use in the area of the urban recycling collection. The crates are having a good impact on recycling and look tidier on recycling day.

#### **Coastal Management Strategy**

The Lions Club have almost completed construction on the Jimmy Armers walkway. With the new wetland completed by the Kaikoura branch of New Zealand Forest and Bird, with funding from the Biodiversity Contestable Fund, the area is looking fantastic.

#### **Glass Recycling Plant**

An application for funding for a new glass recycling plant has been lodged with the Ministry for the Environments Waste Minimisation Fund. A glass recycling plant would allow all glass to be sorted and shipped to a glass processing plant in Auckland. The glass is then melted down for new glass product reducing the need for raw materials and energy for new glass.

- **Environmental Health**

**FOOD AND HEALTH STANDARDS (2006) LIMITED**

[www.foodandhealth.co.nz](http://www.foodandhealth.co.nz)

**Subject: ENVIRONMENTAL HEALTH UPDATE REPORT 2011**

---

**1.0 REPORT OVERVIEW:**

1.1 This report provides Council with an overview of two key legislative changes that are under review.

1.2 These are

- (i) The Food Bill 2011
- (ii) Alcohol Reform Bill 2011

1.3 I shall provide short commentary on both highlighting any key points that may or will have a direct impact on Council.

**2.0 THE FOOD BILL 2011:**

2.1 The Food Bill 2011, if enacted, will replace the Food Act 1981 and would signal some fundamental changes to New Zealand's domestic food regulatory regime.

2.2 The Food Bill aims to provide an efficient, effective and risk-based food regulatory regime that manages food safety and suitability issues, improves business certainty and minimizes compliance costs for business.

2.3 The Bill passed its first reading on 22 July 2010 and is now with the Primary Production Select Committee. Due to the earthquakes in Christchurch, many of the original time plans were missed. So as it stands at the moment, the Bill is before Select Committee for a second reading when Parliament resumes in the New Year. It is likely to be enacted in 2012 coming into force in its entirety by 2013.

#### 2.4 Risk-based approach to food safety

The Food Bill introduces a risk-based approach to food safety. It proposes a shift from the current emphasis on 'walls, floors and ceilings' approach to food safety (currently required by the Food Hygiene Regulations 1974) to considering the processes and practices that need to be in place at a food business to keep food safe. This approach reflects international best practice and will provide consumers with greater confidence that their food is safe.

#### 2.5 Risk-based measures;

The Food Bill requires that any person involved in the trade of food must operate under one of three risk-based measures. These measures reflect the diverse range of food preparation activities. The risk-based measures are

- (i) Food control plans,
- (ii) National programmes, and
- (iii) Good food handler guidance.

Premises on food control plans will be managed, assessed and verified at local level by Council MAF Food Act Officers.

Council will certificate and audit these premises annually based on the contents of the food control plans and how well they are adopted / implemented in the premises.

Currently Council has 25 premises that have provisionally registered food control plans. Audits and assessments are currently being undertaken.

#### 2.6 Clarifying the roles of regulators;

The Food Bill clarifies the roles of food industry regulators. MAF Food will take primary responsibility for all regulatory functions, including administering the new Food

Act and related regulations, preparing guidance material and recognizing persons who may undertake verification and enforcement functions.

2.7 Single set of rules;

The Food Bill will largely remove the need for local food related bylaws - the whole country will operate under a single set of rules.

2.8 Improved compliance and enforcement provisions;

The Food Bill provides for an improved compliance and enforcement regime. It includes provisions that set out the requirements for food businesses operating under risk-based measures to be verified, and includes a broader range of penalties and sanctions, including improvement notices, prohibition notices, closure and seizure.

**3.0 ALCOHOL REFORM BILL 2011**

3.1 The bill has five policy objectives

- (i) to reduce excessive drinking by adults and young people
- (ii) to reduce the harm caused by alcohol use, including crime, disorder, public nuisance, and negative health outcomes
- (iii) to support the safe and responsible sale, supply and consumption of alcohol
- (iv) to improve community input in local alcohol decisions
- (v) to improve the operation of the alcohol licensing system

3.2 As Council is aware, two separate consultative processes have taken place on the “Alcohol In Our Lives” documents produced in association with Sir Geoffrey Palmer. The outcomes of this system have produced a workable and I believe robust mechanism that will effectively deliver all of the five policy objectives above.

**3.3 In short, some of the key points are:**

- A graduated approach to purchasing alcohol - 18 years of age for on-licences and 20 years of age for off-licences. Minimum age for GM is now 20 years
- Making it an offence for anyone other than a parent or guardian to provide alcohol to an under-18-year-old without a parent's or guardian's consent.

- Where alcohol is provided to under-18-year-old the parent, guardian or authorised person will need to ensure the alcohol is supplied in a responsible manner.
- Allowing the Minister of Justice, in consultation with the Minister of Health, to ban alcohol products which are particularly appealing to minors or particularly dangerous to health.
- Empowering local communities to decide on the concentration, location, and hours of alcohol outlets (including one-way-door policies) for both on and off-licences in their area through the adoption of local alcohol policies.
- Setting national default maximum hours of 7am - 11pm for off-licences and 8am - 4am for on-licence, club licence, and special licences for local authorities. These would be controlled at local level by LAP's.
- Broadening the matters that must be considered in licensing decision-making to include such things as the object of the Act, the provision of the local alcohol policy, and whether the amenity or good order of the area would be lessened if the licence is granted.
- Strengthening the law on the type of stores eligible for an off-licence to reinforce the current approach that dairies and convenience stores are not eligible.
- Increasing penalties for a range of licence breaches, including allowing an intoxicated person to be on licensed premises, allowing violent behaviour to take place on premises, and running an irresponsible promotion.
- Widening the definition of 'public place' in liquor bans to include car parks, school grounds and other private spaces to which the public has legitimate access.
- Strengthening the existing offence of promotion of excessive consumption of alcohol by making it apply to any business selling or promoting alcohol, and setting out examples of unacceptable promotions, such as giving away free alcohol.

- Investigating a minimum-pricing regime by giving retailers a year to provide sales and price data. If they are not forthcoming the Government will consider regulatory options for obtaining this data.

### **3.4 Local Alcohol Policies:**

- Communities currently have very little say into licensing decisions – they have no legal right to prevent a new liquor outlet opening in their neighbourhood, or prevent these being located near sensitive sites such as schools or other community amenities.
- Section 75 of the Alcohol Reform Bill states that any Territorial Authority may have local alcohol policies. Given the intended nature of these policies, and indeed the traction that they already have, I am of the opinion that every TA will automatically adopt and implement LAP's – Kaikoura being no different.
- The Law Commission reported communities should have more say on local licensing matters and that licensing authorities should have regards to a larger range of matters such as aim of the law, impacts of an additional outlet on the neighbourhood, existing number and type of outlets etc.
- The Law Commission recommended that all local authorities be required to adopt a local alcohol policy and that licensing authorities must take these into account.
- Local iwi, hapu, Police, licensing inspectors, medical officers of health and any other appropriate persons be consulted in preparing these. That there be full public consultation on the proposed policy (Local Government Act 2002).

### **3.5 Policies should be required to include:**

- A stock take of the number, type and hours of licensed premises in the district;
- the demographic and socio-economic make-up of the local population, and overall health indicators;

- a broad assessment of the range and level of alcohol-related problems occurring within the district; permitted areas for licensed premises; areas, if any, subject to liquor ban bylaws; and
- a local process for managing intoxicated people in public places through collaboration of police, ambulance and health services.

### **3.6 And may include:**

- A strategy for reducing alcohol-related harm in the district;
- local restrictions on the national hours prescribed in the statute for the opening and closing of licensed premises; and/or areas in the district that may reasonably be identified as having reached or being close to reaching saturation levels in terms of the cumulative impact of licensed premises (there being a rebuttable presumption that further licences will not be granted in those areas).
- In short - The LAP process appears more streamlined and simplified than originally suggested in Alcohol in our Lives documentation. I am encouraged that TA's will be able to manage alcohol related matters at LOCAL level. This includes some fundamental enforcement matters as well as hours, density, location etc.
- As with the food, the Alcohol Reform Bill is due for a second reading this month. The third reading and enactment is now likely to be mid 2012, with full roll out / the act being in full enforcement by mid 2013.

## **4.0 CHALLENGES FACING KAIKOURA DISTRICT COUNCIL**

### **4.1 Food:**

- Fee structure for cost recovery of premises with approved food control plans.
- National consistency in auditing of food premises / statistics.
- Acceptance of Food Control Plan concepts for all premises.
- Time taken for initial audit may be significant given lack of knowledge
- Nationally and locally – MAF / Kaikoura DC will have to produce literature / guidance and updates as the Food Bill evolves.
- Lack of local interest given the 8 years the DFR has taken to complete.

## **4.2 Liquor**

- Risk based fee structure needs to be robust and sustainable.
- Composition of the DLC – District Licensing Committee
- Training of the DLC – understanding the roles, complexities etc.
- Length of service on the DLC – 5 years
- Conflict of interest – members of DLC cannot be licensees or persons with a vested interest in the liquor industry.
- Workloads and availability of the DLC to meet, hear applications, oppositions and approve or decline applications
- Cost to Council – cost recovery and fee setting / enforcement costs / user pays.
- Potential lack of national guidance material for training of DLC members
- DLC's will be largely led by the Liquor Licensing Inspector
- Resistance to LAP / contents / streamlining of hours / density etc

## DRINKING WATER MONITORING AND COMPLIANCE REPORT

FOR THE MONTH OF: AUGUST 2011

<b>WEEK: 1</b>		<b>DATE: 01.08.11</b>

# Environmental Services Budget Report

### EXPENDITURE - MONTHLY
