## KL - Kordia Limited

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.

<b>Lapse date</b>	Given effect to (i.e. no lapse date)
<b>Designation hierarchy under S177 of RMA</b>	N/A
<b>Conditions</b>	N/A
<b>Additional information</b>	N/A

# MSNZ - Meteorological Service of New Zealand

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.
