Please attach a site plan of where the service is to be physically connected on your property. Council also requires an as-built plan to be provided on completion of work.

In addition to the service approval fees and physical connection costs there are additional costs associated with connecting to a Rural Water supply. These are detailed on the next page.

¹ This fee applies where there is an increase in demand i.e. a new connection, where an additional house is built on a property or where a new house is built within the kaikoura urban stormwater area where no physical connection is made.

Council will arrange for the physical work to be undertaken and you will be invoiced for the actual cost of the work. The Service Approval fee and Rural Water Supply charge, if applicable, is to be paid at the time of application.

In addition to the fees associated with the application and connection to the service there are annual rates charges per water unit for rural supplies and annual charges for the urban supplies and connection to the sewer system. Please contact the Rates Officer If you would like to find out about changes to your rates.

I hereby agree to observe the provisions and rules of the NZ Building Regulations and other relevant regulations. I also hereby agree to observe the provisions of the Kaikoura Water Supply Bylaw 1996.
