

KDC Contract No. 21-033

Refuse Transport

Notice to Tenderers No.1

Willingness to consider Alternative Tenders where Contractor provides compaction equipment

As yet Kaikōura District Council has not made any firm decisions regarding the manner in which refuse will be packaged for transport under this contract and how the equipment used for such packaging, such as compactors, will be sourced.

For this reason Council will give consideration to alternative tenders under which the Contractor provides such equipment.
