

Historic Sawdust Capped with Material Excavated for Aerated Lagoon (2019)

Limestone Chip for All Weather Vehicle Access

Oxidation Pond Solids (2022)

Oxidation Pond Solids (2022)

Anaerobic Lagoon Solids (2021)

Infiltration Basin

Resource consents

Currently

- Some are process-specific rather than effects based
- Gaps – not everything covered
- Timeline – some expire much earlier than others

Abatement notices

- New consents process and content agreed

New consents

- “Global” – site wide air, discharges to land, groundwater
- Effects at and beyond boundaries
- Monitoring sufficient to show site processes are performing as expected
- Duration as long as possible
